

SAINT
JOSEPH
SOCIETY
PLANNED GIVING

Judy Murray
MSJA Class of 1962
Legacy Scholarship

Judy cherished her years at The Mount and will be remembered by her classmates as kind, spiritual, persistent and determined to achieve. While the Sisters of Saint Joseph of Boston did not succeed in “recruiting” her, they did help her foster her deep love of God. After graduating from Regis in 1966, Judy entered The Discalced Carmelites of Danvers where she spent three years in a contemplative life.

Judy’s religious calling was not for a lifetime. Judy attended Columbia University receiving her nursing degree and then onto UPenn’s Nurse Practitioner Program. Judy’s long career as a Nurse Practitioner did not take the usual path. Beginning at Brigham and Women’s Hospital, she worked mostly in Employee Health, caring for the care-givers; then onto Blue Cross Blue Shield in Case Review, where she impacted patients’ lives by insuring they received the care and services to which they were entitled. She was the consummate patient advocate in this position. Judy used her nursing, medical and investigative “know-how” to help so many friends and family members through the years, whether the help was solicited or not.

One of the last “missions” Judy took on was with other MSJA Alumnae when The Mount came together with Trinity Catholic to form Saint Joseph Prep. Judy was extremely involved in the drive to re-launch The Mount Alumnae Association, conducting endless research and ensuring that solid information was provided to all longtime MSJA advocates. There is no doubt Judy’s spirit is still working the issue from heaven! The Mount Alumnae Association was launched in May, 2014.

Judy’s life was cut way too short by her death on January 14, 2014. Judy’s sister, Ruth Murray Lambert, MSJA Class of 1968, said, “We hope that through her planned gift, establishing the Judy Murray, MSJA Class of 1962 Legacy Scholarship, she can somehow help a young woman who shares her ideas, ideals and spirit.”
